STANDARD CHAIN WHEELS

Sedis wheels are supplied made of machine-welded steel or of cast iron in some cases. Teeth are raw casting or flame-cut, or machined for bush chains. Wheels can be supplied bored and keyed. For wheels with offset hub, the entry point of the key is placed at the same side as the teeth, unless specified otherwise.

We can make on request:

- wheels with machined teeth
- wheels with a different number of teeth
- special wheels
